

Transform how science is taught! Supplemental curriculum engages active learning through phenomena-based, interactive activities for grades 6-12

Fosters Active Learning & Love of Science

Seamlessly Embedded Science Practices

Efficient Teaching, Effective Learning

It's easy to implement Pivot Interactives in the classroom

Get Setup

Receive an email invitation from Pivot Interactives. Once you accept, get setup in a few steps.

Invite Students

Students easily join Pivot Interactives by an LMS connection or through a join link. From there students can complete assigned activities.

Pick and Assign Activities

Find, save and assign standards-aligned activities to support classroom instruction. Easily customize as needed!
